General Information

PLEASE READ CAREFULLY BEFORE ORDERING

Order Early—Do not delay ordering until planting time as many varieties will be sold out. As orders are received stock will be reserved and sent at the proper time, or when the buyer requests. All tubers sent out before March 15th are sent at the buyer's risk. Altho every precaution will be taken, they are not guaranteed against freezing.

Terms—Remittance with order on or before shipment. Retail orders are delivered prepaid. No orders sent C. O. D.

Shipping—Orders are shipped as soon after April 1st as convenient, unless otherwise notified. Green plants will be shipped on or around the 15th of May.

Guarantee—We guarantee every bulb and plant sent out by us to be true to name, also to be in growing condition when received after which our responsibility ceases. Please notify at once if anything is unsatisfactory when received, or if any tuber or plant does not grow after planted a reasonable time.

Substitution—We do not substitute unless requested to do so, but would suggest naming a second choice.

Name and Address—Be sure to write name and address plainly.

Green Plants—We especially recommend the planting of green plants. Ninety per cent of our exhibition stock is grown from plants. If given the proper care they will reward you with finer flowers than those grown from tubers.

Do not be discouraged if a dahlia from a different locality does not do well for you the first season it is planted. Try it again the second year, as many varieties need to be acclimated.

If you do not see the variety listed that you want, write us, as we grow many dahlias that the stock is too limited to list.

We will introduce eight of our seedlings next year at the annual show of the Garden Club of Northampton County; also at the New York Show in Madison Square Garden. They are all exceptional, and will warrant your attention. Watch for them.

Address all Communications to Bushkill Gardens, Box 185, Easton, Pa.
